DEPUTY CLERK

Re: William Mayo v. John E. Wetzel, No. 1:18-cv-0878

To: Ms. Bedell, Esq.

I'm dropping you these few lines in regard to something that I was contemplating upon my ride back to SCI-Phoenix from our scheduled mediation hearing to inform you that I'm kind of apprehensive about consenting to a individualized step down plan to facility my release to General Population ("GP") to be housed on specifically QA for one particular reason: what if we agree to settle this action pursuant to the statutory provision of 18 U.S.C. § 3626(c)(2) and the administration here at SCI Phoenix and/or Central Office (somehow) change

(1 of 3)

their mind - I wouldn't be able to effectively seek redress, so if we can agree on reasonable terms of a individualized step down plan I'm going to request a additional stipulation: ~~that Judge Connor be made aware of the aforesaid terms as assurance that it would be adhered to~~ which Rule 1b(c)(1) Fed.R.Civ.P. would be the controlling authority, especially granted my release to GP stands at the cornerstone of this action.

Be that as it may, I been in solitary confinement for seven (7) consecutive years, so I would assume that the individualized step down plan would be for months and not years, yet I would be open for a extensive length of GP probation.

continued Proposal For settlement

1) The indefinite z-code [i.e. single cell status] as a security blanket that I don't have to worry about having any issue(s) with that in the future.

2) I would assume that the individualized step down plan won't consist of Me just staying in the cell all day, so the five (5) pair of sneakers

(2)

and sneaker exemption to accommodate my ankle injury by providing extra comfort when I walk. I mean, I can only surmise that I'm going to be required to do janitorial work and etc..

3) a copy of my optometry Report from a eye examination at SCI-Fayette on February 15, 2017.

4) The reasonable monetary sum that I initially proposed.

Respectfully submitted,
W Mayo
